

GITTINGS

General Tips for Dress and Grooming:

- Avoid wearing strongly patterned, striped, or checked clothing. (Light stripes or subtle prints are fine as long as they coordinate with the outfit.)
- Avoid white or very light colors, unless they are worn under a dark jacket/cardigan.
- Avoid large pieces of jewelry.
- Prior to your photoshoot, discuss any concerns about appearance with the photographer. The photographer will be able to advise on how the retouching process can help with hair, skin, shadows, discoloration, wrinkles, etc.
- If you normally wear glasses but prefer a portrait without them, discuss this with the photographer before he begins shooting.
- Style your hair as you normally would for work.
- Bold ties that are solid in color or have simple patterns photograph best.
- Straight collar shirts photograph better than button-down collars.
- It is encouraged to be clean-shaven or to wear a tidy beard / facial hair.
- If you wear makeup, you should wear the makeup you normally wear.
- You may want to bring makeup with you for last-minute touch-ups.

Tips for Men:

- Men must wear a tie. Wear whatever tie you would normally with the suit that you are wearing. However, if you have any questions, please feel free to bring along a couple of other tie options and ask the photographer's opinion.
- Straight collar shirts photograph better than button-down collars.
- Men are encouraged to be clean shaven or have a well-manicured beard / facial hair.

Tips for women:

- If you use make-up, you should wear the makeup you normally wear as you would for a meeting with an important client, prospect, or court.
- You may want to bring makeup with you for last-minute touch ups.
- Wear clothing with an appropriate business neckline.
